Asbestos Management Plan

Within the last year, the School District has conducted planned asbestos removal at the following buildings:

Country Dale Elementary
Forest Park MS

In addition, Operations and Maintenance work has been carried out at all of buildings. The School District also requires that all new building materials introduced into the School District are free from asbestos. For all new buildings/additions, the architect responsible for the design certifies that to the best of their knowledge, no asbestos containing materials are used. If new buildings are acquired, they too will be inspected.

The School District has a list of the location(s) and type(s) of asbestos containing materials found in the building and a description and timetable for their proper management. A copy of the Asbestos Management Plan is available for review in the School District office as well as individual school offices. Our goal is to be in full compliance with AHERA. It is our policy to maintain a safe and healthful environment for our students and our staff members. This shall be accomplished by strict enforcement of the policies regarding asbestos by the asbestos manager and the school officials.

Social Media Accounts

Use of social media accounts on school property is a privilege, not a right. Searches of a student's social media account may be conducted in accordance with state and federal law. The District may solicit assistance from law enforcement for such searches. Students are responsible for the contents of their personal social media accounts.

Lockers and Desks

The school provides lockers for students' convenience to be used solely and exclusively for the storage of outer garments, footwear, and school-related material. The school retains ownership and possessory control over all school lockers. Lockers are the sole property of the District and are always under the control of its agents. Students are responsible for the assigned lockers and its contents. Students are prohibited from putting private locks on their assigned lockers. School authorities for any reason may conduct periodic general or random inspections of lockers at any time, without notice, without students' consent, and without a search warrant. Desks are subject to the same search standards as lockers.

Student's Person and/or Personal Belongings

While school officials are statutorily prohibited from conducting strip searches, students and/or their personal belongings may be subject to search.

Student Privacy

Franklin Public Schools has made arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes.

Franklin Public Schools will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. The District will also directly notify, such as through U.S. Mail or email, parents of students who are scheduled to participate in the

specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey.

The District will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this requirement:

- Collection, disclosure, or use of personal information for marketing, sales or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.
- Any non emergency, invasive physical examination or screening as described above.
